

To Anyone in need of medical care:

We would like to recommend SurgeryHost. SurgeryHost has been instrumental in much improving the health of both my husband and me. The specialists associated with SurgeryHost are excellent doctors. My husband and I have had a series of health issues in the past year and we don't know what we would have done without the help of Lorena and Stephanie (the two women in the office) and the doctors. My husband's electrical system associated with his heart was misfiring and he had to have his heart mapped and subsequent ablation which is a very delicate procedure to say the least. The doctors were excellent and Mark came through this procedure with excellent results. I had a ruptured disk in my neck and had to have surgery to remove the disk and replace it with a titanium box, and again, the doctors were excellent as were my results.

SurgeryHost not only provides assistance for health matters requiring surgery, they also provide assistance with other health issues. I had seen other doctors in the Lakeside area for several years with stomach related problems without good results. The specialists with SurgeryHost performed the necessary tests, diagnosed the problem, and prescribed medications that finally took care of the problem.

In addition, Lorena will make the appointment with the doctor for you and *drive* you to your appointment if you don't feel like driving to Guadalajara. When I ruptured the disk in my neck I was in too much pain to drive and my husband was not able to drive at the time either. Lorena took care of everything, calling the doctor and relating the problem, arranging for us to go to the hospital right away, driving us to the hospital and helping us get admitted and into our room. We are so very thankful for this service and know it would have been very difficult for us had they not been there. We have had several times in the past year where we have not been well enough to drive into Guadalajara to see the doctor and Lorena has made the appointment, driven us and helped us with the Spanish speaking receptionists.

SurgeryHost is an invaluable service to our community.

Sincerely,

Linda and Mark Nelson
